

KS40-5/16X18-SS

Ruland KS40-5/16X18-SS, Star Knob, 40mm Knob Diameter, 5/16x18 tapped hole, Stainless Steel

Description

Ruland KS40-5/16X18-SS is a star knob with a 40 mm knob diameter, and 5/16x18 tapped hole. This star knob is used to quickly adjust conveyor guide rails, screens, sensors, and other industrial components without tools. It mates to hardware with 5/16x18 threading. The knob and tapped hole are made of AISI CF8 stainless steel with a shot blasted finish. This gives KS40-5/16X18-SS good corrosion resistance capabilities for use in food, packaging, and medical applications. The grooves of the star-shaped knob offer an ergonomic grip, making it easy to tighten and loosen as needed. It is ideal for confined spaces due to its small dimensions and tool-free operation. KS40-5/16X18-SS is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
