Dear Valued Customer,

Re: Product Change Notification – NS1000

This letter is served as a notification of Laird’s plan to bring in a new supplier of PU resin used in our absorber, NS1000 series, made in our Shenzhen (China) site. The reason for introducing the new supplier is to improve the uncertainty of leading time of current source from US with tightened custom inspection process. Your part numbers influenced are listed in below table.

Customer Part Number	Laird Part Number	Part Description
	NS1006	210mmx300mmx0.06mm
	NS1010	210mmx300mmx0.1mm
	NS1013	210mmx300mmx0.125mm
	NS1020	210mmx300mmx0.2mm
	NS1040	210mmx300mmx0.4mm
	NS1020-GPR	210mmx300mmx0.2mm

NS1000 series with PU resin from the new source has passed our full qualification process. So there is no change of any specification of this product series.

This notification is for your information and acknowledgement. If you have additional questions or concerns, please contact your local sales office. ***If you require specific data or product samples to certify this change, please contact your Laird Technologies local sales office within 30 days of this notification.***
