Water Leak Detection Kit for SRCOOL60KCW

MODEL NUMBER: **SRCOOL60KWDR**

Highlights

- Sounds an alert in case of contact with water or other liquid
- Must be manually set on-site

Package Includes

- SRCOOL60KWDR Water Leak Detection Kit
- Accessory reference sheet

Connects to Tripp Lite's SRCOOL60KCW In-Row Precision Cooler to send an audible alarm in case of contact with water or other liquid.

Description

The SRCOOL60KWDR Water Leak Detection Kit is an optional accessory for Tripp Lite's SRCOOL60KCW In-Row Precision Cooler. When installed, the cooler's water leakage detector will trigger a system alarm when it comes in contact with water or other liquid, and then sound an audible alert. The SRCOOL60KWDR must be manually set on-site for leakage detection and installed at a low level. If the cooler's default lower piping configuration is used, the SRCOOL60KWDR should be placed close to the pipeline below the raised floor.

Features

Monitors Water Leakage and Sends an Alarm

- Optional accessory for Tripp Lite's SRCOOL60KCW
- Triggers system alarm on contact with water or other liquid
- Sounds an audible alert
- Must be manually set on-site for leakage detection and installed at low level
