TE Connectivity

Product Change Notification: PCN-21-106658

PCN Date: 19-JUL-21

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
 HD30 SERIES, Plug & Receptacle, N and e Seal Configuration

Description of Changes
 The Industrial and Commercial Transportation business unit of TE Connectivity is making a temporary (six months maximum) change to the color of the rings for the part number(s) listed below. Blue and Green rings, standard and all modifications: -059, -072, -L005, -L006, -B019 are going to be molded from gray material. A laser mark with the type of seal and the original ring color will be added to the connector. For full packs, a Blue or Green dot will be added to the box and Blue or Green colored sheet will be placed inside the box. With global demand in excess of supply on PA66, the material supplier is restricting TE's buying allotment on certain colors. These PNs are TE proprietary designs, therefore considered catalog/general market product. Product drawing(s) are not affected.

Reason for Changes:
 Dear Customer, we hereby inform you of this change. The allotted amount of material is at a level where production is impacted and to close the gap, gray material will be used to replace Blue and Green material. The change does not impact performance. IMPORTANT: The current and previous revisions of these parts can be used interchangeably in the field. The changes are being phased in gradually and previous revision can remain stocked until use. Shipments of both configurations may be mixed.
