

Issue Date: March 27th, 2020

Dear Valued Customer,

This notice is to inform you of changes affecting item(s) that you have purchased from Littelfuse.

Description of the Change:

- The final assembly of finished good 9011 has been moved from Mexico to Indonesia. There is no change to fit, form, or function of this product.
- The switch is also used in 9011-BX. Though the switch will transfer manufacturing sites per the above, the packing operation of this retail-packaged product will remain in Mexico.

Reason for The Change:

- Due to the decline in consumption over the past years, the subcontractor at which we produce this part has moved production equipment for this part to a facility which produces similar products. By capitalizing on existing competencies at this location, this is being done to prevent any cost increases.

Effective Date of the Change:

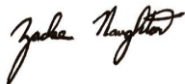

- This is effective immediately; open orders will require fulfillment from this secondary location.

What You Need to Do:

- As this will occur as a running change, supply will not be disrupted, and no action is required.

If you have any questions, please feel free to contact your Littelfuse Customer Service Representative or your Inside Sales Representative. We appreciate your business and our continued partnership.

Sincerely,

Zachary Naughton
Global Product Manager
Littelfuse Commercial Vehicle Products
