

## PCN No: 06102021

Date: 06/10/2021  
Product: VCCM600 Series

### Purpose of change

To update the warning statements in the VCCM600 user manual to show dangerous voltages can be present on the VCCM600 series products up to 10 minutes after AC power is disconnected

### Proposed changes

- VCCM600 user manual page 34 Warning – Re-Write the 3<sup>rd</sup> bullet point to show “Dangerous voltages are present within the power supply. Products may only be removed by qualified personnel when the power supply has been disconnected from the mains supply voltage for at least 10 minutes. Products must be replaced, and all screws secured properly before reconnection of the mains voltage”
- VCCM600 user manual page 41 (First Warning – Top of Page) – Re-Write the 1<sup>st</sup> bullet point to show “Dangerous voltages are exposed on certain parts of the VCCM600 power supply even after mains power has been removed. The VCCM600 product should only be handled by qualified personnel when the power supply has been disconnected from the mains supply for at least 10 minutes”

### Type of change
