Description of Change
<p>Reference previous notifications 2nd November 2015. PCN's P-15-012191, 012092, 012093, 012194, 012195 and 012196</p> <p>As previously notified by PCN (P-17-014722) TE Connectivity will be moving production of RT-375 tubing to Trutnov CZ Republic. This transfer will be made in phases until all appropriate equipment has moved. The phase dates are in the attached documents. Different parts will move in different phases.</p> <p>As part of this transfer TE Connectivity will be issuing new part numbers for these transferring products. The New part numbers and a cross reference to the current and old original part numbers can be found in the attached documents. Old part numbers have been included as we are aware that not all our customers updated records from previously notified part number changes.</p> <p><u>Please note:</u> For Spooled (-SP) and Stick (-STK) parts the sales Unit of measure will change to Metres for the -SP parts and Piece for the -STK parts.</p> <p>The part number list attached shows you the RT-375 products that are affected. As the notification for transfer was issued earlier TE has assumed that any required PPAP's and samples have already been requested if this is not the case and you require a PPAP or specific testing please inform us within 30 days of receiving this notification, so we can coordinate the documentation and support your requirements. This should be requested from your local customer care representative.</p> <p>For any questions or concerns please contact your Customer Care Professional.</p>
