Re: Update on Transition of 2mm Connector Product Families for US Customers

To our Valued Customers:

For 3M's transition of connector operations, please be advised that 107 parts in the 3M™ Pak 20 Wiremount Socket, 1522 Series and 3M™ Latch/Eject Header, 1552 Series have now been transitioned to the new manufacturing location and should now be ordered using the new Southeast Asia (SEA) Source of Supply (SoS) Legacy SKUs and SAP IDs. Please refer to the list in Appendix A for the transition status and cross-reference list for all parts being transitioned in this wave. This is also available through bCom. The end user/customer must determine whether the transitioned SKUs are suitable for their intended applications.

Please reach out if you have any questions or concerns regarding the transition.

Thank you for your continued partnership with 3M.
