Subject: Notification of Immediate Stop Shipment on Certain Products

Valued Distribution Partner,

Please be informed that ITT Cannon LLC ("ITT") continues on stop production and stop ship status, as directed by the DLA Land and Maritime ("DLA") for the following products:

MIL-DTL-38999, MIL-DTL-26482, MIL-DTL-83723, MIL-DTL-24308, MIL-DTL-83513, MIL-DTL-83733, FSC 5935, VQP-17-031226, CN 055334

Stop production and stop shipment applies to all ITT Category C (Value Added) Distributors as well. We have been advised by DLA that the stop shipment order affects ITT inventory that Category C distributors may have on any company locations besides their approved assembly sites.

As previously communicated, resale distributors may continue to ship without restrictions items currently in inventory.

ITT continues to work closely with the DLA to resolve any and all of its concerns as quickly as possible. We will communicate further as we make progress on resolving this issue. Please contact your ITT point of contact with any questions on this subject.
