

DataComm Electronics' Recessed Pro-Power Kit w/ Duplex Receptacle is used to install power and low voltage cables behind your HDTV, your amplifier or other audio/video devices. This power relocation kit allows you to pass low voltage cables and power through the wall, creating a professional, clean look for every home theater.

Features

- Works with the industry's the thinnest mounts and HDTV's.
- 15 Amp/125 Volt tamper resistant duplex receptacle allows power to be installed behind an HDTV or other similar applications.
- Metal mounting wings are attached to the media plate and fasten tightly against the back of the wall.
- Female end of extension cord is recessed completely into the wall when plugged into the Straight Blade Inlet.
- Male end of extension cord has a 360° rotating flat head for easy access to any outlet.
- Parts Included:
