The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description of Change:

The attached lists of sensor actuator boxes will have their housing color changed from green to black. This has been a consistent customer request, and due to limited material availability of the green material it makes sense to make this change. The color change will not affect other technical properties of the articles. The color of the Quickon nuts for SACB-*Q* products from the attached list will not be changed (remains green). The first changes will take place in the next weeks. However it could take up to six months until all products from the attached list will be shipping with the new black material.
