

WHEN QUALITY COUNTS CHOOSE STEINEL

Example 1

STEINEL®

HG 350 ESD

STEINEL Lite™ Precision Hot Air Tool

This sleek, ergonomically optimized tool incorporates cutting edge STEINEL technology to meet the exacting needs of even the most sensitive applications. Ideal for shrink tubing, solder sleeves and desoldering electronic components.

- Compact, lightweight construction
- Targeted 3.5 cfm airflow
- 750°F increases to 930°F with reducer (included)
- LED light illuminates work area and serves as "on" indicator
- Integral security hanger for overhead suspension
- ESD Safe

STEINEL Lite™

34750

Included

Made in E.U.

Part#	Model	Description	Temperature Range	Voltage @60 Hz	Output Watts	Shipping Weight	Weight (Net) lbs.	Stock No.	Each
34735	HG 350 ESD	Precision Hot Air Tool	750°F or 930°F with reducer	120 VAC	300	2.0	1.4		\$179.99

Accessories

Part #	Description	Application	Stock No.	Each
07730	¼" / 7mm Reducer	Concentrates heat to 930°F		\$3.99
07735	Reducer w/ Reflector Guard	For desoldering electronic components		\$5.99
07765	1 ½" / 40mm Reflector	For shrink tubing & solder sleeves		\$3.99
07755	⅝" / 10mm Reflector	For shrink tubing & solder sleeves		\$3.99
07745	Precision Reflector	For shrink tubing & solder sleeves		\$10.99

Example 2

STEINEL®

HG 350 ESD

STEINEL Lite™ Precision Hot Air Tool

This compact, lightweight tool incorporates cutting edge STEINEL technology to meet the exacting needs of even the most sensitive applications. Innovative features include a bright LED light to illuminate the work area while highly focused hot air ensures an accurate result.

3.5 CFM, 750°F or 930°F with reducer, 300 watts, 120 VAC, 60Hz, ESD Safe
