

Product/Process Change Notification 2020-09-15

Dear Customer,

At Navitas, we are focused on delivering GaNFast products to our customers. As we continuously improve our products, we will communicate changes to our customers per JESD-46 Solid State Device Change Notification Standard.

Products Affected:

NV6113 5x6 QFN

NV6123 6x8 QFN

Details of the Change:

- Wafer fab yield improvements
- Design improvements

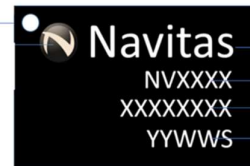

Benefits of the Change:

- Increased capacity in Wafer Fab as production ramps.
- Device and System level testing confirm drop-in replacements – no changes to datasheets.
- All changes have been qualified to Navitas standards – qualification report available.

Timing of the Change:

- Customers are to review PCN and respond by October 15, 2020.
- Samples are available now through local Sales or contact below.
- Starting with Date Code 2050 (December 15, 2020), parts will be shipped with current version or with these changes implemented.
- Traceability by version is defined by lot code. Parts with this change implemented have a Z at the end of the Lot Number
