

KNIPEX CutiX

Universal snap knife

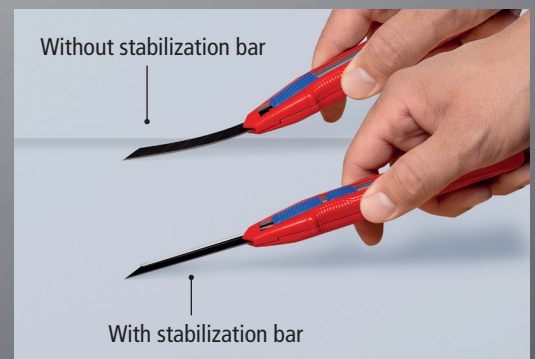

Built-in tether attachment point

Two separate sliders – one for blade and one for stabilization bar

Innovative stabilization bar keeps the blade from bending for quicker cutting

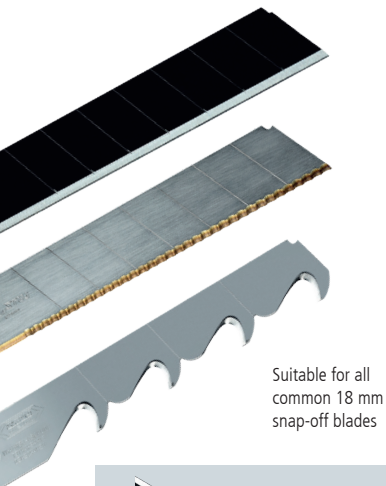

Standard 18 mm snap-off blade

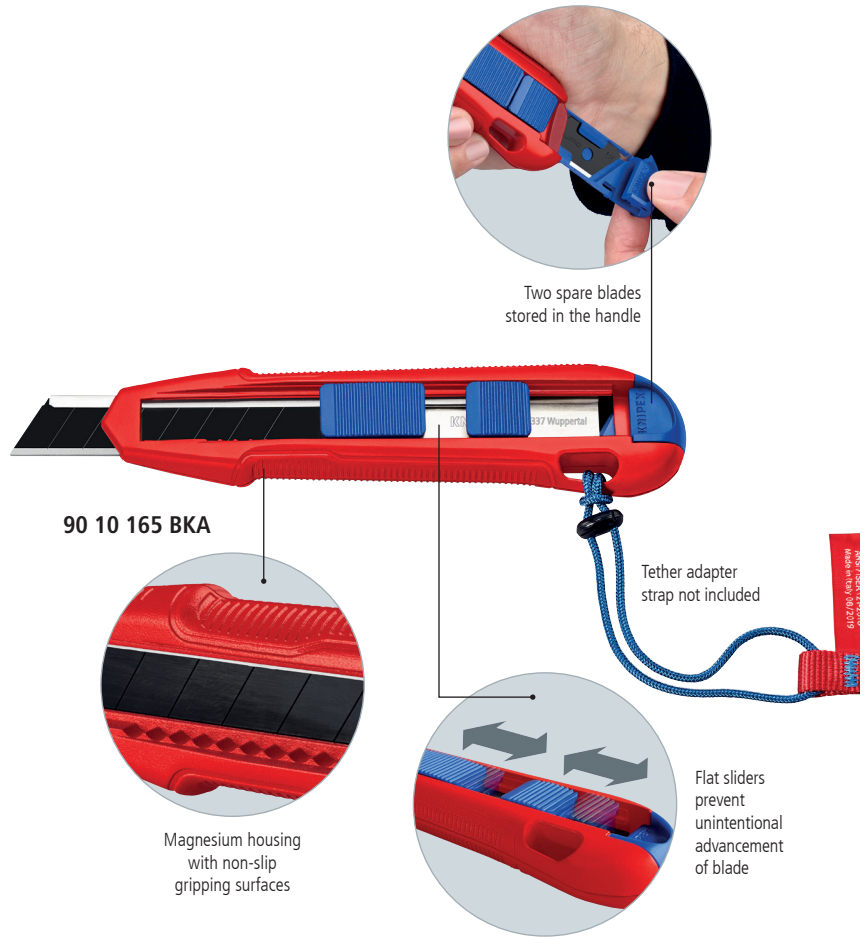

Unique extendable stabilization bar can be engaged or retracted based on the application

KNIPEX CutiX Snap Knife

- ▶ Unique extendable stabilization bar can be engaged or retracted based on application
- ▶ Hardened steel pin securely locks the blade in place
- > Suitable for standard 18 mm blades
- > Blades can be easily replaced without tools with just a push of the button
- > Tether attachment point can be used with KNIPEX Tethered Tools System
- > Two spare blades stored in the handle
- > The two blades included with the tool have seven cutting points
- > Lightweight magnesium housing with non-slip gripping surfaces

Suitable for all common 18 mm snap-off blades

Easy replacement of the blade without any tools.

Multiple non-slip gripping zones for precise work.

The innovative blade stabilization bar allows you to apply more secure pressure directly on the blade.

Part Number	Length		Housing	⚖️
90 10 165 BKA	6 1/2"	165 mm	magnesium	0.32 lbs
90 10 165 E01	spare stabilization bar			

BKA signifies hang-up packaging (POP Carded)
