

Product Change Notification

Date: 3/25/14

Objective: PT-54 (Standard Rth Product) End-of-Life Notification

Dear Valued Luminus Customer:

As Luminus continues to improve the performance of its products, we are consolidating some of our legacy products lines. As a result, Luminus is notifying its customers of the discontinuation of the PT54 standard Rth product and offering the thermally enhanced (TE) version of the product as its suggested replacement.

The affected ordering part numbers and their suggested replacement part numbers are:

Ordering Part Numbers Affected	Suggested Replacement*
PT-54-RA-C21-MPx	PT-54-RA-L31-MPx or PT-54-RAX-L35-MPx
PT-54-R-C21-MPx	
PT-54-R-C22-MPB	none recommended
PT-54-G-C21-MPx	PT-54-G-L31-MPx
PT-54-G-C31-MPx	
PT-54-B-C21-EPx	PT-54-B-L31-MPx
PT-54-B-C21-MPx	

***Note:** The PT54-TE product not fully electrically or mechanically backwards compatible with the PT54 (standard Rth) product. While the footprint is the same, the PT54-TE product uses a 10-pin connector while the PT54 standard Rth product uses an 8-pin connector. If you are considering one of the replacement options, please contact Luminus for more details.

Luminus is offering customers a last- time-buy opportunity for the above products (affected ordering part numbers). Luminus recommends our customers to carefully evaluate their replacement needs for the PT54 (standard Rth) product as the suggested replacement options are not fully backwards-compatible with the products targeted for end-of-life.

Last-time buy purchase orders will be accepted until May 30, 2014. Last -time- buy product shipments need to take place by August 30, 2014.

Please contact your local sales representative or Luminus Customer Service (cs@luminus.com) if you have questions regarding this product notification.
