DESCRIPTION AND PURPOSE OF CHANGE:

Due to a continuous product improvement process, Würth Elektronik will change the product marking and packaging label.

DETAIL OF CHANGE:

The WE-LF Series in vertical version has received a VDE Certification according to IEC 60938-2. Due to this, we will add the VDE-LOGO to the current product marking. The packaging label will be identified with **ENEC10** as shown in pictures on next page.

The VDE certification is already valid for currently available products, but products with changed marking will only be sent to customers after the PCN effective date
