Product Change Notification

Thank You for your business and continued interest in TDK's WPT Products.

Name of change	Lifecycle status change from production to NRND for the following WPT Products.		
----------------	---	--	--

TDK Part #	WT1005660-12K2-A6-G WT505060-10K2-A11-G WT505060-20K2-A10-G	Recommended Alternatives	WT1005690-12F2-A6-G1 WT505090-10F2-A11-G1 WT505090-20K2-A10-G
------------	---	--------------------------	---

**Purpose**

This is an official notice of the production status change for the products mentioned above. These products have been revised to Not Recommended for New Design or "NRND". NRND is a production status classification that indicates a part number is approaching the end of its product life cycle. It is not End of Life, rather NRND represents the period between mass production and End of Life (EOL). NRND addresses the natural decline in market sales and may identify a consolidation/changing of the product portfolio dependent on market conditions.

TDK will Offer a suggested replacement alternative whenever possible. These suggested alternative components may not be 100% the same in electrical performance and mechanical dimensions. The main objective is to provide suitable alternates from the available TDK WPT Products Portfolio. Should you have any questions please contact your TDK Sales Representative for additional support.

Schedule : Effective July 23, 2020
