

# Product Discontinuation Notice

## 3M™ Pak 5 Socket, PK5 Series, 0.5 mm Stacking Socket and 0.5 mm Stacking Plug

Issue Number: 805

Date: October 5, 2011

### Product Discontinuance

Due to insufficient market demand, 3M is discontinuing the PK5 Series of board stacking products. Final orders will be accepted until close of business (Central US Time) on Feb. 25, 2012. This notice applies to all products shown on TS1149 and TS1153, with part numbers beginning with the “PK5-“ designator.

### Replacement Parts

There is not a direct replacement available to the PK5 series. 3M offers another similar family of 0.5 mm pitch board-stacking products under the P05N series. The P05N series is not intermateable to PK5 products, and is not footprint interchangeable with the PK5 series. It is a possible, functional replacement only. However, the customer will need to determine whether this alternate socket is suitable for their intended application. Please see TS-1092 and TS-1093 for details on the P05N family of products.
