Product Discontinuation Notice for Gold-Terminated BC and USX Series NTC Chip Thermistors

Dear Valued Customers and Distributors:

Littelfuse, Inc. would like to inform you of the discontinuation of selected products with gold terminations from the BC Series and USX Series of NTC chip thermistors due to low demand for more than four years.

- We can only accept a last time purchase order for these select products until **November 30, 2020**
- We will cease the manufacture of these select products from **March 31, 2021**

Please see Appendix A of this letter for the list of part numbers being discontinued.

Unfortunately, there are no replacements. A buffer inventory of NTC thermistor chips and semi-finished goods has been built and will be utilized to support last time buys while supplies last.

Please contact your Littelfuse sales representative to make arrangement for a last time buy order for the affected part numbers. All last time buy orders will be **non-cancelable** and **non-returnable**.

This notification is for your information and acknowledgement. Please respond to us by **October 30, 2020** to acknowledge receipt and understanding of this discontinuation notice. If we do not hear from you by the above-mentioned date, we will expect that this discontinuation notice has been accepted and that no further action is required.

Should you have any questions or require additional information, please contact your local Littelfuse sales representative.
